

Salon T. Daigle - UV Free Spray Tan Waiver

Note: YOUR SPRAY TAN WILL NOT PROTECT YOU FROM THE SUN OR TANNING BEDS!
Sunscreen is still highly recommended for protection from UVA/UVB rays.

1. The tanning solution contains color that may transfer to clothing, furniture, or car seats. The tanning solution is water based, so washing will always remove color (with the exception of silk fabrics). Salon T. Daigle is not responsible for potential stains to clothing or upholstery.

2. If you have allergies to products containing DHA, or if you have extremely sensitive skin, we suggest consulting a physician prior to tanning. We recommend a patch test on the back of the thigh a few days prior to your full body appointment. An allergic reaction in this case is extremely rare and can usually be soothed with a simple shower.

3. The duration of your tan is based on many factors such as skin condition, exfoliation rate, lifestyle, etc. **Salon T. Daigle has no control over these factors and makes no claims in regard to your personal duration.** Maintaining a sunless tan requires proper care, so please consult your technician for tips, aftercare & products to use at home to extend the life & vitality of your tan. It is important to follow these instructions. *Failure to do so may adversely affect your results.*

4. Pregnant women should consult a physician prior to using sunless products. **CHECK ONE:**

I am not pregnant

I am pregnant, & have discussed sunless airbrush tanning with my physician.

I have read and understand the above statements and hold Salon T. Daigle harmless with regard to any and all claims.
